Resolution-1

China flexing their muscles in Asian region

India and China had very cordial and warm relations for centuries, before the two countries became independent in 1947 and 1949 respectively. Despite best efforts by India, like enunciation of Principles of Panchsheel, peaceful co-existence etc. with the rest of the world including China. Where China was also a signatory, relations between India and China started deteriorating. China's hostility towards India continued to increase after 'Dragon'annexed Tibet in 1950, which was an autonomous body and never been a part of China and thereafter India gave asylum to thousands of Tibetans including their religious leader Dalai Lama, who fled to India in 1959, to escape from the atrocities committed by China. China has not resolved border issues with India. Instead of accepting Macmohan line as the boundary between India and China, 'Dragon'started claiming other integral parts of India likes Ladakh, Bhutan, Sikkim, Arunachal Pradesh and Nepal. It was the idea of the then China's President Maotse Tung, who had proclaimed that he had already annexed Tibet, which they presumed to be the palm of a hand and the above mentioned five states were five fingers, which china would take over next. China attacked India in 1962 treasonously without provocation and forcibly occupied 40,000 sq kms of our territory in Ladakh sector and further laid a claim over more than 90,000 sq kms of area in North-East including Arunachal Pradesh.

China in collusion with Pakistan has taken over a large part of Pakistan occupied Kashmir (POK),which is illegally occupied by Pakistan and has started construction of a road, connecting China with Gwadar port in Karachi (which Pakistan has already gifted to China) and passing through Gilgit-Baltistan, Afghanistan, Baluchistan and of course Pakistan. Pakistan has planned to declare illegally Gilgit-Baltistan as her fifth province, which International community including UK has condemned. China has already encircled India through sea route by constructing Sea Ports in Myanmar, Chittagong in Bangladesh, Hambantota in Srilanka and Gwadar in Karachi. This is a serious threat to the security of India and a matter of grave concern.

From time to time China violates our territory by land and air and provokes us by interfering into our domestic affairs, which is totally unjustified and unacceptable. Chinstarted issuing paper visa to the residents of Jammu and Kashmir and those of Arunachal Pradesh. From time to time 'Dragon'objects to the movement of our dignitaries like President, Prime Minister etc. within India for attending Buddhist conclaves. China objects the movement of Spiritual priest Dalai Lama to Arunachal and other places within India. Very recently China

has objected to movement of Dalai Lama to Arunachal Pradesh. India has ignored these threats and Dalai Lama has gone to Arunachal Pradesh for religious activities.

China assisted Pakistan in her nuclear programme against all norms and International treaties on proliferation of nuclear technology and provokes Pak against India. It has been consistently blocking India's membership to United Nation Security Council, while India offered membership to China out of extreme generosity putting aside all diplomatic principles and norms. While all members of UN Security Council condemned the terrorist activities of Azhar Masood of Pakistan and declared him as a terrorist, China has been repeatedly using Veto in favour of this terrorist and creates obstacle in the way to declare ban on him. However, India already well aware of the China's dual stands and many instances had shown Dragon's damnable tricks in the past. China has always tried to create imbalance in Asia region by showing it's daunt attitude. Even America had shown its stance against China's territorial revisionism in Asia region previously.

Resolution: FANS strongly condemns and opposes the strong arm tactics and hegemonic attitude and actions of China, which are serious threat to its own security and integrity and resolves to defend the nation's sovereignty at any cost, while continuing its peaceful negotiations diplomatically and peacefully.
