RESOLUTION -2

PAKISTAN

Pakistan has been a womb for producing terrorists ever since it became independent in 1947. She waged war against India without any provocation in 1947, 1965, 1971 and in 1999 in Kargil area of J&K. During the conflict she occupied our land in J&K known as POK. Besides sending mercenaries from across the border, she has been carrying out illegal smuggling of drugs and narcotics, weapons, fake currency etc. into India. She is trying to dismember J&K from India and has been actively supporting separatists. Having been defeated in successive wars, she adopted guerrilla warfare tactics and has been carrying out terrorist activities in India for the last 30 years. From time to time India took initiative to peacefully resolve all the issues. Pakistan turned them down. Our Prime Minister Shri Narendra Modi extended his hand of friendship by inviting Pakistan Prime Minister during his oath taking ceremony and then making an impromptu landing in Pakistan to felicitate P M of Pakistan Mr Nawaz Sharif and his family on a solemn occasion. But all in vain. Pakistan reciprocated our gesture by attacking our airbase at Pathankot and attack on Army establishments in Uri and elsewhere inflicting casualties. She has been supporting Taliban and ISIS to carry out nefarious activities inside India. She has been declared a rogue state but she is shamelessly carrying out training of jihadis and terrorists.

Pakistan does not honour treaties and ceasefires and is a biggest liar.

Forum for Awareness of National Security, after having debated our relations with Pakistan resolves that;

1. Pakistan is an untrustworthy and a liar neighbour. We need to be careful in dealing with her. She has no respect for international community and their advice.
2. International Pressure must be brought upon Pakistan to dismantle Training centres for terrorists.
3. Financial and military aid to Pakistan by donor countries should be stopped.

4. Economic blockade be used as a weapon to stop terrorist attacks and bring Pakistan to negotiating table.
5. Pakistan needs to be handled with iron gloves. Any provocation by her must be responded with all the might. We should not hesitate in carrying out surgical strike type of operations deep inside her territory.
6. We should be proactive and must not hesitate in taking necessary action to prevent the attack by Pakistan.
7. Terrorist camps near the border must be destroyed.

India must adopt Pro-active policy in dealing with Pakistan.
